Education

- Present **M.S./Ph.D. Student**, *Columbia University*.
Earth and Environmental Engineering Department
- 2015 **B.S., Mechanical Engineering**, *Yale University*, New Haven, CT.
Honors Cum Laude, Distinction in Mechanical Engineering
Senior Project Adapting UVC-LEDs for Portable Water Disinfection, advised by Prof. Jaehong Kim and Prof. Corey O'Hern
- 2011 **Wilbur Cross High School**, New Haven, CT.

Research Interests

- Hydroclimatic variability and extremes
- Statistical modeling and forecasting
- Climate-informed water management
- Water security in the developing world

Experience

- 2014–2015 **Student Researcher**, *Universidade Federal do Ceará, Hydraulic and Environmental Engineering Department*, Fortaleza, Brazil.
Created computer model to evaluate hydraulic sustainability for two spatial scales. Coupled rainfall-runoff, evaporation, and precipitation models to estimate water levels of small reservoirs in rural areas.
- 2014–2015 **Research Assistant**, *Prof. Jaehong Kim, Yale University*.
Researched design and application of UVC-LED technology for water purification. Built lab testing apparatus and cell phone case to house UVC-LEDs.
- 2014 **President**, *Engineers Without Borders, Yale Undergraduate Chapter*.
Also Design Lead (2013), Member (2012, 2015). Led 30-member interdisciplinary team through design and construction of rural water supply system for community of 2000 in Rohvitangitaa, Cameroon.
- 2013 **Mechanical Design Intern**, *DEKA Research and Development*, Manchester, NH.
Built and tested Slingshot water purification systems. Advised Slingshot trials in rural Paraguay.
- 2012 **Ikatú Agua Project Intern**, *Fundación Paraguaya*, Asunción, Paraguay.
Developed and conducted review of microcredit program to help rural water providers in rural Paraguay make sustainable service improvements. Visited 19 rural communities in 5 states and presented findings.

Computer Skills

Office Experience working with Microsoft Office, L^AT_EX, and standard L^AT_EX packages

GIS	Basic competence using ArcGIS (Windows) and QGIS (UNIX) to generate simple maps and geo-referenced databases
Modeling	Matlab (proficient), R (intermediate), STATA (basic), Python (basic)
Programming	C++ (basic), Java (basic)

Languages

English	Native
Spanish	Full Professional Proficiency
Portuguese	Professional Working Proficiency
French	Elementary Proficiency
Guaraní	Basic

Honors and Awards

- 2015 **Presidential Distinguished Fellowship**, *Columbia University*.
- 2015 **Distinction in Mechanical Engineering and Materials Science**, *Yale University*.
- 2014 **Larry Coben '79 Fellowship**, *Yale University*.
Funded travel and research at Federal University of Ceará
- 2013 **Vance-Carter Travel Award**, *Yale University*.
Funded travel to lead Engineers Without Borders trip to Cameroon
- 2012 **Thomas C. Barry Fellowship**, *Yale University*.
Funded travel to Paraguay for Ikatú Agua Internship

Publications and Presentations

Articles In Review
