

---

## Education

- Present **Ph.D. Student**, *Columbia University*, New York.  
Earth and Environmental Engineering Department
- 2016 **M.S.**, *Columbia University*, New York.  
Earth and Environmental Engineering Department
- 2015 **B.S., Mechanical Engineering**, *Yale University*, New Haven, CT.  
**Honors** Cum Laude, Distinction in Mechanical Engineering
- 2011 **Wilbur Cross High School**, New Haven, CT.

---

## Research Interests

- Hydroclimatic variability and extremes
- Statistical modeling and forecasting
- Climate-informed water management
- Water security in the developing world

---

## Experience

- 2015–Present **Graduate Student Researcher**, *Columbia Water Center, Department of Earth and Environmental Engineering, Columbia University*, New York.  
Statistical process-based modeling of extreme precipitation events and flooding
- 2014–2015 **Student Researcher**, *Universidade Federal do Ceará, Hydraulic and Environmental Engineering Department*, Fortaleza, Brazil.  
Created computer model to evaluate hydraulic sustainability for two spatial scales. Coupled rainfall-runoff, evaporation, and precipitation models to estimate water levels of small reservoirs in rural areas.
- 2014–2015 **Research Assistant**, *Prof. Jaehong Kim, Yale University*.  
Researched design and application of UVC-LED technology for water purification. Built lab testing apparatus and cell phone case to house UVC-LEDs.
- 2014 **President**, *Engineers Without Borders, Yale Undergraduate Chapter*.  
Also Design Lead (2013), Member (2012, 2015). Led 30-member interdisciplinary team through design and construction of rural water supply system for community of 2000 in Rohvitangitaa, Cameroon.
- 2013 **Mechanical Design Intern**, *DEKA Research and Development*, Manchester, NH.  
Built and tested Slingshot water purification systems. Advised Slingshot trials in rural Paraguay.
- 2012 **Ikatú Agua Project Intern**, *Fundación Paraguaya*, Asunción, Paraguay.  
Developed and conducted review of microcredit program to help rural water providers in rural Paraguay make sustainable service improvements. Visited 19 rural communities in 5 states and presented findings.

---

## Computer Skills

- Data Analysis **R** (proficient), Matlab (proficient), STATA (basic), Python (basic)
- Programming **C++** (basic), Java (basic)
- Office Proficient in **LaTeX**, **LyX**, Microsoft Office

GIS Competent in ARCGIS and QGIS  
OS Windows, OSX, Linux (Ubuntu, Linux Mint), UNIX shell

---

## Languages

English Native  
Spanish Full Professional Proficiency  
Portuguese Professional Working Proficiency  
French Elementary Proficiency  
Guaraní Basic

---

## Honors and Awards

2015 **Presidential Distinguished Fellowship**, *Columbia University*.  
2015 **Distinction in Mechanical Engineering and Materials Science**, *Yale University*.  
2014 **Larry Coben '79 Fellowship**, *Yale University*.  
Funded travel and research at Federal University of Ceará  
2013 **Vance-Carter Travel Award**, *Yale University*.  
Funded travel to lead Engineers Without Borders trip to Cameroon  
2012 **Thomas C. Barry Fellowship**, *Yale University*.  
Funded travel to Paraguay for Ikatú Agua Internship

---

## Publications and Presentations
