# James Doss-Gollin

#### Education

- Present **Ph.D. Student**, *Columbia University*, New York. Earth and Environmental Engineering Department
  - 2016 **M.S.**, *Columbia University*, New York. Earth and Environmental Engineering Department
  - 2015 **B.S., Mechanical Engineering** , *Yale University*, New Haven, CT. **Honors** Cum Laude, Distinction in Mechanical Engineering
  - 2011 Wilbur Cross High School, New Haven, CT.

### Research Interests

- Hydroclimatic variability and extremes
- Stastical modeling and forecasting
- Climate-informed water management
- Water security in the developing world

# Experience

- 2015–Present **Graduate Student Researcher**, Columbia Water Center, Department of Earth and Environmental Engineering, Columbia University, New York.
  - Statistical process-based modeling of extreme precipitation events and flooding
  - 2014–2015 **Student Researcher**, Universidade Federal do Ceará, Hydraulic and Environmental Engineering Department, Fortaleza, Brazil.

Created computer model to evaluate hydraulic sustainability for two spatial scales. Coupled rainfall-runoff, evaporation, and precipitation models to estimate water levels of small reservoirs in rural areas.

- 2014-2015 **Research Assistant**, *Prof. Jaehong Kim*, Yale University.
  - Researched design and application of UVC-LED technology for water purification. Built lab testing apparatus and cell phone case to house UVC-LEDs.
  - 2014 **President**, Engineers Without Borders, Yale Undergraduate Chapter.
    - Also Design Lead (2013), Member (2012, 2015). Led 30-member interdisciplinary team through design and construction of rural water supply system for community of 2000 in Rohvitangitaa, Cameroon.
  - 2013 **Mechanical Design Intern**, *DEKA Research and Development*, Manchester, NH. Built and tested Slingshot water purification systems. Advised Slingshot trials in rural Paraguay.
  - 2012 **Ikatú Agua Project Intern**, Fundación Paraguaya, Asunción, Paraguay.

Developed and conducted review of microcredit program to help rural water providers in rural Paraguay make sustainable service improvements. Visited 19 rural communities in 5 states and presented findings.

# Computer Skills

- Data Analysis R (proficient), Matlab (proficient), STATA (basic), Python (basic)
- Programming C++ (basic), Java (basic)
  - Office Proficient in LATEX, LyX, Microsoft Office

GIS Competent in ARCGIS and QGIS

OS Windows, OSX, Linux (Ubuntu, Linux Mint), UNIX shell

# Languages

English Native

Spanish Full Professional Proficiency

Portuguese Professional Working Proficiency

French Elementary Proficiency

Guaraní Basic

### Honors and Awards

- 2015 Presidential Distinguished Fellowship, Columbia University.
- 2015 Distinction in Mechanical Engineering and Materials Science, Yale University.
- 2014 **Larry Coben '79 Fellowship**, *Yale University*. Funded travel and research at Federal University of Ceará
- Vance-Carter Travel Award, Yale University.Funded travel to lead Engineers Without Borders trip to Cameroon
- 2012 **Thomas C. Barry Fellowship**, *Yale University*. Funded travel to Paraguay for Ikatú Agua Internship

### **Publications and Presentations**

#### Journal Articles
